Summary

Hey, I love technologies and I like to be learning as well as working on new technologies. I am a passionate Web Developer, Flutter Developer, Coder and have worked on new web tools those I have mentioned. I'm a fast learner and I can acquire new technologies and tools very fast also I can switch over the programming languages in a week.

Skills

JavaScript • Java • Data structure • React • Express.js • MongoDB • Node.js • Python • Dart • Flutter.

Projects

Personal Portfolio

Jan 2023 – Feb 2023

1 coworker

Technologies: React • Node.js • Bootstrap 5

This is my personal portfolio web page. I've made using HTML, CSS, JavaScript, React and some other libraries. It has hosted on GitHub pages so you can go through the link the above mentioned in heading.

NewsApp

Jan 2023 – Feb 2023

1 coworker

Technologies: React • API • Node.js • Bootstrap 5

The application of that app is to get latest news through the news API and appear on the webpage in a category's manner. Users can navigate category of news using Navbar listed categories and many more functionalities added to this app.
