Summary

Hey, I love technologies and I like to learning as well as working on new technologies. I am passionate Web Developer, Coder and have worked on new web tools those I have mentioned. I'm fast learner and I can acquire new technologies and tools very fast also I can switch over the programming languages in a week.

Skills

JavaScript • Java • Data structure • React • Express (express.js) • MongoDB • Node.js • Python

Projects

NewsApp

Jan 2023 – Feb 2023 • 1 mo

1 coworker

Technologies: React • API • Node.js • Bootstrap 5

The application of that app is to get latest news according to category through API and appear on the web page. User can navigate category of news using Navbar listed categories and many more functionalities added to this app.

saveNotes

Mar 2023 – present

1 coworker

Technologies: JavaScript • React • MongoDB • Express (express.js) • Node.js

Currently I'm working on this project. The application of this project is to manipulate notes of particular user means a user can create, read, update, and delete through login with the personal email id and password.
